This program is for students who want to pursue an IB education alongside intensive golf training to be able to build a career either in golf or academics, whether in India or through college golf in a different country.

This is the first of its kind in India, where a school and a golf academy take the initiative to run a topnotch golf program for its students. Both Sharanya Narayani International School (SNIS) and TSG Academy believe that it is a great way to learn life lessons from sport when the approach is structured, personalized and provides information of the highest quality.
