

ACADEMICS AT TSG ACADEMY

CBSE (Grades 6-8)
AND NIOS (Grades 9-12)
WITH PROSE EDU

ABOUT PROSE EDU & Gamechanger Schooling Program

PROSE EDUCATION ACADEMY PVT LTD was established in 2017 with the vision of taking schooling to every playground in this country.

Gamechanger,
India's first certified
online schooling
program

"How to become a professional sportsperson and gain the necessary academic qualifications at the same time?"
This is a question that many children, sports coaches, and parents have been asking. With Gamechanger, India's first certified online schooling program for sports students, we provide the answer. And the roadmap to the student's dream of a successful career in sports. The Gamechanger Schooling Program has been jointly developed by educationists and sports coaches to address the specific needs and demands of students pursuing sports.

About TSG ACADEMY

TSG Academy is India's first and only residential, high-performance golf academy, based at the beautiful Zion Hills Golf County in Kolar, India

The organization is passionate and goal-oriented with a razor-sharp focus on holistic growth built on a solid foundation for young golfers to grow into excellent professional golfers.

TSG Academy has already established a strong reputation of excellence with the 2021 National Amateur and Junior champions being students of TSG. It has a strong alumnus with the youngest Indian winning an Asian Tour event in 2018, and India's representative to the Olympics 2020, both being students of Mr. Tarun Sardesai, the Director of Instruction and Founder of TSG Academy.

ABOUT THE PROGRAM

The program is designed for young aspiring sportspersons in the age group of 10 to 18 years offering CBSE between 6th-8th grade and NIOS from 9th-12th grade.

Here the model is designed to have subject matter experts deliver classes online and on-ground support staff at the academy for day-to-day supervision of study hours and student progress.

This program is only for those on the full-time residential program at the academy. The student does academics for 3 hours per day, for 5 days a week.

Given that every student has different tournament travel schedules it is imperative to monitor their attendance and learning process very closely.

PROGRAM HIGHLIGHTS

- *No classes or worksheets during tournament travel*
- *Compulsory self-study everyday when at the academy*
- *Aptitude based lesson planning for each student*
- *Individual sessions for students when necessary*
- *Flipped and double-flipped classroom approach when required*
- *Classes are video recorded if the team foresees a requirement*
- *Students do internal monthly unit tests and quarterly exams*
- *The syllabus has been digitized and put on the cloud for easy access*
- *Parents are given monthly updates about the progress of their child*

TSG Academy and PROSE are committed to provide solutions based on the student's requirements so that it is in their best interest to give their board exams to the best of their abilities, without compromising on their sports training.

SUBJECTS OFFERED

Grade 6-8

English, Geography, History, Political Science, Mathematics, Science, Computer Science

Rationale

- *The first out is in class 8 should a student want it, or for any unforeseen reason*
- *This leaves open the option of going back to a regular CBSE school*

Grades 9-10

English, Business Studies, Social Studies, Economics and Mathematics
Vocational Course: Computer science

Rationale

- *When a student seeks admission post Class X, it is basis his 'best 5' subject score*
- *PROSE EDU prepares the student for only 5 subjects, allowing him to give his best without the pressure of doing another 5*
- *The choice of subjects allows him to get into the arts or commerce streams for 11th and 12th standard, in any college*
- *Students not only get a class 10 pass certificate from NIOS but also get an NSQF level 4 vocation certificate in computer science from NIOS.*

Grades 11-12

English, Business Studies, Mass Communication, Economics, and Psychology
Vocational Course: Computer Science

Rationale

- *Psychology is relatable given the nature of the game they play and their access to mind-training at the academy*
- *Business Studies teach them to think critically about the skills needed to run oneself as a business*
- *Economics gives them a macro understanding of the importance of the environment in which they (as a business in themselves) need to operate*
- *Mass Communication and English are the lighter subjects, more in tune with their upbringing and lifestyle; it also opens Arts as an option*

GOOD TO KNOW: FACTS ABOUT NIOS

- There are only 2 board exams – Class 10 and 12
- The exams take place in the month of April and October
- Only board that issues vocational certificate along with class 10 and class 12 pass certificate
- The student has the option of taking exams for all subjects in one go or splitting it up between April and October
- Some subjects have a practical and TMA (teacher marked assessments) which help toward better scoring in the final exams
- The student need not wait to finish class 10 exams to start studying the class 11 portions; however, all subjects in class 10 have to be cleared before giving the class 12 exams
- Given that the academics program is designed to support a student's golf aspirations (and tournament schedule), finishing class 10 and 12 can often take an extra year to complete

TEACHING FACULTIES:

Experienced teachers with required training on

- i) Online teaching methodology
- ii) Classroom management techniques
- iii) Handling the educational needs of sports students which is very different from regular students
